Sirs,

Re: Your email sent on 9 March 2018 timed to 17:28 in 2014/CLE/gen/No.01620 UBS (Bahamas) Ltd (in

Voluntary Liquidation) v Junkanoo Estates Ltd et al.

The freak case of you, being the persons without legal authority who have deluded the world into thinking they have it, is going to be addressed and no doctrine will protect neither you nor your client.

As we already noted there is anybody else in the said case except you [or two of you] hiding behind the veil of legal professional privilege and Mr. John Delaney QC [a joint liquidator of UBS (Bahamas) Ltd while other joint liquidators are changing] sheltering behind the UBS' veil and having a next neighbour Mr. Larode King, a person known to the Police.

The said Mr. King, in 2014, during an unsolicited visit to our property said that he will take possession of it and, on 23 February 2018, at an occasional meeting asked if we are still at the property claiming to be a next neighbour and a friend of Mr. Delaney.

The truth is that all of you are the true co-conspirators in a continuing conspiracy who entered into an agreement to defraud professional law enforcers and public authorities, to corrupt public morals and to outrage public decency, foreseeing that unjust or unfair decisions of public officials would or might result.

You all were aware of the ambiguous position of police and a bailiff in which you were placing them by procuring the violation of key principles of the Human Right Convention, the right to privacy and respect for personal property, in the course of eviction by trespassers on 27 February 2018 where powers of entry and seizure were used unfairly, irresponsibly, without respect for us and our children being actually physically expelled from the premises with unlawful discrimination, harassment and victimisation.

The said professional law enforcers, objectively innocent officials, who participated in the plot and took an active part in furtherance of the said your agreement now are at risk of being prosecuted, discharged or dismissed, but that does not exonerate all of you as true conspirators who played a peripheral role.

You all were aware that the best interests of our children were a primary consideration in this case and could not be outweighed by any effect of other matters that weigh in the public interests because there are none any. Instead, there are some of you actuated by a desire for personal profit who sought to gain, at the expense of us that which could not otherwise get, or could only get at great expense of money in sums at least \$3,600,000.

You emerge from this whole sorry tale with ignominy, as unscrupulous and deeply mendacious persons, who systematically used the process of law as a weapon with which you were able to inflict real injury on us and on six wholly innocent children one of them has actually suffered harm and the others were at risk of suffering.

We hereby require that you immediately and unconditionally grant us access to the Lyford Cay property and we ask you with serious misgivings that you will do this, to be reasonable and abstain from further abusive conduct and unlawful actions, which would only make your respective positions worse.

Regards,

Irina and Yuri Starostenko
